

A Free and Energetic Government

Faithful Reform in California Governance

California Government is a disaster.

Late Budgets year after year. Programs created, then dissolved.

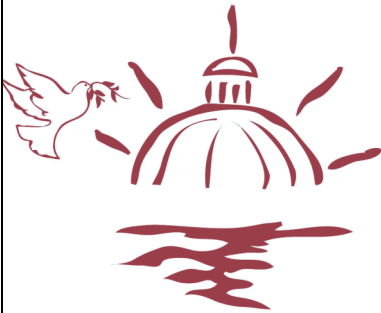

Mediocre schools, poor roads, declining quality of life.

No one can dispute California needs to reform how we govern.

Your voice matters.

You may have a say in where we go, what we do.

Join California Council of Churches and CA Forward to:

Learn how we got into this mess

Find out how existing “reforms” have failed

Consider what we can do to help make CA government work

Figure out innovative changes we can make

Share your ideas with others in your congregations

Share your ideas with the leading reform organization

Make a real difference in our state governance

Arrange a two-hour training on the California Council of Churches’

A Free and Energetic Government

What does faithful reform mean to you as a person of faith and a citizen of California? What are the basic moral guidelines by which any reform proposal must be evaluated? We will walk you through the use of the guide, the issues, and the exercises that let your voices be heard by CA Forward and our government leaders seeking effective changes in how we legislate.
